The Beginner

BEMBÉ PARKETT

Bembé is Europe's largest and oldest wood flooring company and has dedicated itself to wood since 1780!

For this reason, we can look back over our experience of several million square metres of parquet floor that we have installed in the past.

In Germany, more than 300 well trained and experienced floor specialized fitters lay more than one million square metres wood floor for 45 Bembé studios every year.

Our competence results from the fact that we are manufacturer and parquet layer at the same time.

We do not only take care of the installation of our parquet floors, we are also available to repair, refurbish properly clean and maintain your floor.

No matter whether solid or multilayer parquet, planks, lamella or marquetry parquet – there is hardly any planning specification we haven't implemented in the past years.

As an experienced service provider, we would like to fulfil all our customer's desires. For this reason, we can also offer you laminate, design floors and special floor renovations for elastic floorings.

Experience and know-how are a guarantee for consistent high quality.

- Laying & renovating since 1780
- Europe's top parquet layer
- 45 showrooms in Germany

Why Bembé ? 11 Reasons

01 Tradition.

Our company has existed since 1780 and has helped shape the parquet market of today.

02 Modernity.

If you understand the past, you can change the future. We understand the past and know what our customers want.

03 Experience.

We experienced every mistake. That is why we are able to react immediately if special requirements are demanded.

04 Customer proximity.

Customer proximity. Our 45 branches in Germany allow for short distances and direct accessibility.

05 Craft.

Our parquet is normally installed by our own employees. 300 of our own parquet experts serve our customers every day.

06 Training.

We train the Bembé junior staff ourselves in the technical and commercial sector. Further training is our standard and part of the company philosophy.

07 Quality.

Apart from the DIN and EU standards, the manufacturing process of our products is also subject to our own strict rules.

08 Certification.

FSC® and Real Wood®: sustainability is not a challenge to us – it goes without saying.

09 Service.

The customer comes first – even in case of maintenance or if there are any technical questions.

10 Maintenance.

We developed our own care products which you can easily buy in our online shop or in one of our 45 showrooms.

11 Guarantee.

We adhere to the quality of our work, even after the warranty period – For more than 237 years.

BEMBÉ LAMINATE

The laminate floor consists of a carrying layer, a décor paper and a highly resistant protective layer.

3 Strips, Series 75, Holm Oak (wood imitation)

DESIGN

Irregular Brick

DESIGNS
